

At United Way of King County, we've been working hard for 101 years now to bring people together to support our neighbors in need and solve some of our community's toughest challenges.

Thankfully, we live in a generous community where people like you lead with their heart and give to end hunger and homelessness, get students ready to succeed in school and strengthen our community. This was true even as COVID-19 disproportionately impacted Black, Indigenous and other communities of color, and the need continues to rise.

We believe in collective action where we put people first—always. And we invite YOU to join us on this journey as we work toward an equitable community where all people thrive.

Thanks again for stepping up to make a difference!

Together, we're building a racially just community where all:

People have homes

Students graduate

Families are financially stable

ENSURING FAMILIES ARE FINANCIALLY STABLE

Too many families in King County wrestle with poverty every day. We connect families with support so they can get on stable financial ground and work toward their dreams. With your support, we can help even more people.

HELPING STUDENTS GRADUATE

Do you agree with us when we say that income, ZIP code and race shouldn't influence success in school? But right now, they do. We're helping students graduate because we know that, for an individual or household, education is the best way to avoid or escape poverty. Together, we can make it happen.
