

# CORPORATE GROUP VOLUNTEERING

---

## United For Good

United Way of King County is a trusted partner to more than 140 local nonprofits, giving us unique insight to the genuine needs of our neighbors across King County. We have the expertise to connect your team with impactful volunteer opportunities that align with your company's values while fulfilling real needs. By partnering with United Way, you can empower your team to give back and make a meaningful difference in our community.

# AT UNITED WAY OF KING COUNTY, WE LET COMMUNITY LEAD THE WAY.

We prepare Community Care Kits based on needs identified by neighborhood-based organizations. These partners are closest to the challenges their communities face—and closest to the solutions.

Rather than offering a fixed menu of pre-set kits, we work in collaboration with our partner organizations to identify the most urgent needs in real time. This flexible, responsive approach is part of our commitment to equity and racial justice, and ensures that each kit is rooted in community voice and real-world impact.

Because needs shift throughout the year, kit themes may change accordingly. We take pride in remaining adaptable and standing beside our partners as they support our neighbors.

## Sample Kit Themes:

- Food Access
- General Hygiene
- Mental Health Comfort
- Seasonal Safety
- Welcome to Seattle
- Reproductive Health
- Infant Care

**Community Care Kit Builds begin at \$5,000 and are tailored to your group's size, desired impact, and project scope.**

**Contact us for a customized project proposal.**

**We've proudly partnered  
with institutions like:**

**Amazon**

**The Gates Foundation**

**Impinj**

**Microsoft**

**Nordstrom**

**PACCAR**

**T-Mobile**

## Why United Way?

### 1. Meaningful Impact

We address critical needs by connecting directly with local nonprofits.

### 2. Customized Experiences

We tailor your volunteer project to your team's responsibility goals.

### 3. Streamlined Logistics

From gathering supplies to organizing staff, we've got it handled.

### 4. Team Building

We create a space to boost team morale and strengthen employee satisfaction by fostering a sense of purpose in the community.

United Way's community-centric volunteering model emphasizes mutual learning, humility, and the understanding that the community members are the experts of their own lives. This approach rejects one-time, feel-good volunteer projects that may serve the volunteer more than the community. Instead, it encourages a commitment to long-term, equitable partnerships that genuinely support the community's goals.

“ I had a great time participating in the [volunteering] event with Microsoft and United Way of King County and learned a lot more about the various programs [United Way] runs. There was a strong community effort in assembling kits for college students, which was both rewarding and fun being among all the volunteers.”

– Ryan Loen, Microsoft
